Tszfai Choy

Software Engineer

SUMMARY

I strive to create websites with responsive and intuitive UX/UI and I have a serious passion for developing easy to access and visually appealing websites with a mobile first approach. I aim to create sturdy and scalable web-pages supported by an efficient backend system using the MERN Stack.

WORK EXPERIENCE

Software Engineering Director @ International Socioeconomics Laboratory

New York, NY

June 2020 — February 2022

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured responsive full stack web applications
- Made several influential decisions for the direction of the website

Web Developer @ Finxerunt Policy Institute

New York, NY

June 2020 — January 2022

Created fully responsive full stack web applications and static websites

Writer and Editor @ STEM from Scratch

March 2021 — March 2022

Wrote 30+ articles on Computer Science for 1000+ viewers per month.

VOLUNTEERING

Technical Support Internship @ Brooklyn Public Library

New York, NY

September 2019 — May 2020

Assisted Adult Librarians, working as lab assistants in delivering computer training programs with over 30+ attendees
